

EarthLED zetaLUX™ 2

The Next Evolution of The Revolution.

ZetaLux™ 2 is offered in two configurations to meet the most common A-Type lamp replacement applications: 40 and 60 watt incandescent replacement. The ZetaLux™ 2 Standard features a 6 watt CREE MX-6 Array to deliver over 300 Lumens @ a pleasing 2800K color temp. A truly stunning performance that allows for direct replacement of 40 watt in down light configurations.

EarthLED
ZetaLux²

ZetaLux™ 2 PRO uses a 7 watt CREE MX-6 array delivering over 450 Lumens @ 2800K color temp enabling the replacement of 60 watt incandescents in down light configurations. Incredible output for its size, the ZetaLux™ 2 PRO even surpasses the output of the original ZetaLux!

In addition to a super warm 2800K color temp, the ZetaLux™ 2 is also available in high output 5000K, in this configuration the ZetaLux™ 2 standard outputs 400 Lumens while the ZetaLux™ 2 PRO delivers an intense 550 Lumens!

Power Consumption: 6 Watts (Standard Edition), 7 Watts (PRO)

LED Light Engine: CREE MX-6

Input Voltage: 110~140 or 220~240

Available Beam Angles: 180

Luminous Flux:

Warm White: 300 Lm STD, 450 Lm PRO

Cool White: 400 Lm STD, 550 Lm PRO

Available CCT:

2800K~5000K

CRI: @2800K: 80

@6000K: 75

Dimmable: No

Product Weight: 6 Ounces

Lifespan: 25K-30K Hours @ 30% Degradation

Warranty: 3 Years

Power Factor: >.55

Certifications: UL, ROHS, CE

Available Base Configurations
